

# Shivam Mistry

Web Developer & MSc IT Graduate

work.shivamr@gmail.com | 6355579882 | Valsad, India | Github: github.com/shivam20-tech

Portfolio: mistryshivam.netlify.app

## PROFESSIONAL SUMMARY

Full-stack Web Developer with a strong foundation in PHP, JavaScript, and Python, and hands-on experience building a production-grade POS system during a 4-month internship at Haronex Technology. Delivered features including automated GST billing, inventory management, and role-based access control. MSc IT graduate (CGPA 8.06) from CVM University. Looking to contribute to a product-focused development team as a Junior/Associate Software Developer.

## WORK EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                   |
